

## HEEADSSS – WHAT COMES AFTER

Designed and developed by SureSkills, this course is delivered as a face to face workshop or as an elearning course.

However you learn, this course provides an introduction providing ongoing support for young people after completing a HEEADSSS assessment.

This structured approach helps provide brief interventions for young people, enabling them to make changes to support their health and wellbeing.

The course is designed for all people who connect and work with young people who have completed our HEEADSSS – an Introduction for Practice course.

Expected learning outcomes include:

1. Describe and demonstrate why HEEADSSS is an essential tool to use in youth health and wellbeing.
2. How to bring the HEEADSSS information together.
3. How to integrate interventions into your HEEADSSS assessment.

**You can purchase the elearning version for just \$49.95 from  
[www.sureskills.co.nz](http://www.sureskills.co.nz)**

**For face to face learning contact us at [contact@sureskills.co.nz](mailto:contact@sureskills.co.nz)**

Accreditation is also being sought by Pharmaceutical Society NZ, College of GPs, College of Nursing and College of Midwives.

Remember all SureSkills workshops can be tailored to the specific needs of you service. Email [contact@sureskills.co.nz](mailto:contact@sureskills.co.nz) to see how we can help.
