

HEARTS – AN INTRODUCTION FOR PRACTICE

Designed and developed by SureSkills, this course is delivered as a face to face workshop or as an elearning course.

However you learn, this course provides an introduction to a framework that strengthens skills in identifying issues that may have an impact on a child's health and well-being.

This structured approach helps identify the key issues impacting a child and family health and well-being. It takes a strengths-based approach, and progresses from routine questions to more probing ones, giving the interviewer a chance to establish an early rapport..

The course is designed for all people who connect and work with children.

Expected learning outcomes include:

1. Introduce you to the HEARTS framework.
2. Provide an overview of Child health and wellbeing.
3. Demonstrate how to use the HEARTS framework in everyday work.

**You can purchase the elearning version for just \$49.95 from
www.sureskills.co.nz**

For face to face learning contact us at contact@sureskills.co.nz

Our elearning course is accredited by Pharmaceutical Society NZ. Accreditation is also being sought by College of GPs and College of Nursing.

Remember all SureSkills workshops can be tailored to the specific needs of you service. Email contact@sureskills.co.nz to see how we can help.
